Meet VGR-5G at Vitalis

Take the opportunity to meet colleagues from the VGR-5G Program at Vitalis, 14–16 May – the Nordic region’s leading meeting place for the future of health, care, and social services.

During this year’s Vitalis fair, the VGR-5G Program will be represented at Region Västra Götalandsregionen’s booth (B10:20). Stop by to talk with us about VGR’s initiative to establish a private 5G network.

Register via our link for free entrance to the exhibition area.

VGR-5G will also participate in the Vitalis conference: VGR-5G – A paradigm shift for healthcare providers in VGR, with Tony Hertz and Christian Bohlin as speakers. The session explains the connection between healthcare professionals’ everyday work, home-based care, and total defense, and why VGR is building its own 5G network. Welcome on Wednesday, 15 May, 16:30–17:00. Conference tickets can be purchased at vitalis.nu.

About Vitalis

Vitalis is described as the Nordic region’s leading conference and exhibition on eHealth and the future of healthcare and social services. It brings together representatives from municipalities, regions, private healthcare providers, authorities, academia, and industry for professional development, knowledge exchange, and inspiration.
