Service Line:
Related Solution(s): Municipality
Project Name: VGRC_SE FVM
TestBuilder Script(s):
Cerner Workflow ID:
Client Workflow ID: 1754
Workflow Notes:
Introduced By: WS 2
Validated By: WS 3

Swim Lane:

Role(s): Any Actor in Care Collaboration [Custom]
All in CareTeam [Custom]
Department(s):
Security Position(s):

Work Step [226]

Description: Actors can update activities in goals component prior plan follow-up.

Future State: Option 1 - Min plan

Cerner Workflow ID: Client Workflow ID: 1754

Last updated by Keisha Jones, Jun 26, 2024 11:52am (UTC +2 hours)

Start/Stop [187]

Description: An individual's care and services requires planning over time.

Comments: Use this workflow for for planning within or between inpatient, outpatient, school, municipal health care or social services setting. It can be used for planning just between patient and a provider or between many actors. For inpatient care IPOCs also can be used for care planning - see inpatient workflows.

Work Step [195]

Description: Complete PF Min Plan, underlag

Work Step [193]

Description: Goals and interventions component is updated with new information.

Work Step [205]

Description: Create Note Min Plan

Work Step [232]

Description: Complete and adjust the planning information. Sign plan.

Step Impact: Training

Comments: All the patient's agreed goals will be pulled in. Any not applicable goals can be removed before note signature.

System [209]

Description: The plan can now be viewed in NPÖ.

Step Impact: Training

Work Step [207]

Description: If needed: The plan can be shared through message center or printed.

Method: *IT_printer-laSer

Decision [218]

Description: Is a follow-up planned?

Start/Stop [291]

Description: End Workflow

Future State: Option 1 - Min plan

Cerner Workflow ID: Client Workflow ID: 1754

Last updated by Keisha Jones, Jun 26, 2024 11:52am (UTC +2 hours)

Swim Lane:

Role(s): Patient

Department(s):

Security Position(s):

Start/Stop [356]

Description: An individual's care and services requires planning over time.

Work Step [358]

Description: Patient provides information for the underlaget PF

Comments: A plan can be created even if the patient is unable to contribute information.

Work Step [360]

Description: Patient can be responsible for activities in the goals component

Comments: There is no technical ability for patient to complete activities in the component, it must be updated by a Millennium user.

Work Step [362]

Description: The patient can contribute information and suggest changes to the document.

Work Step [364]

Description: Patienten kan view the plan in 1177 journalen

Comments: Patients in VGR need to know that the care plan will be visible under the header Care Plans

Work Step [365]

Description: Patient can receive a printed copy of the plan.

Swim Lane:

Role(s): Alla aktörer i samverkan [Custom]

Alla kliniska roller [Custom]

Department(s):

Security Position(s):

Work Step [311]

Description: Aktörer kan uppdatera sina aktiviteter inför nästa planering i mål-komponenten.

Future State: Option 1 - Min plan

Cerner Workflow ID: Client Workflow ID: 1754

Last updated by Keisha Jones, Jun 26, 2024 11:52am (UTC +2 hours)

Start/Stop [316]

Description: En individs hälso- och sjukvård och/eller omsorg kräver planering.

Comments: Använd detta arbetsflöde för planering inom eller mellan slutenvård, öppenvård, skola, kommunal hälso- och sjukvård eller socialtjänst. Den kan användas för planering mellan patienten och en vårdaktör eller för planering mellan många professioner. För slutenvårdsplanering kan även verktyget IPOCs användas - se annat arbetsflöde för slutenvården.

Work Step [299]

Description: Fyll i formulär Min Plan, underlag

Work Step [304]

Description: Uppdatera överenskomna mål och aktiviteter-komponenten med ny information.

Work Step [314]

Description: Skapa Anteckning Min Plan

Work Step [313]

Description: Fyll i och justera anteckningen med planeringsinformation. Signera anteckningen.

Step Impact: Training

Comments: Alla patientens överenskomna mål dras in, mål som ej behövs för planen kan tas bort från anteckningen innan signatur.

System [312]

Description: Planen finns nu för att se i NPÖ.

Step Impact: Training

Work Step [315]

Description: Vid behov kan planen delas via meddelandecenter eller utskrift.

Method: *IT_printer-laSer

Decision [322]

Description: Planeras planen följas upp?

Start/Stop [323]

Description: Avslut arbetsflöde

Future State: Option 1 - Min plan

Cerner Workflow ID: Client Workflow ID: 1754

Last updated by Keisha Jones, Jun 26, 2024 11:52am (UTC +2 hours)

Swim Lane:

Role(s): Patient (Svenska) [Custom]

Department(s):

Security Position(s):

Start/Stop [336]

Description: En individs hälso- och sjukvård och/eller omsorg kräver planering.

Work Step [337]

Description: Patienten förser underlaget med information om önskemål.

Comments: Om patienten inte har möjlighet att uttrycka önskemål kan planen ändå skapas.

Work Step [339]

Description: Patienten kan stå som ansvarig för aktiviteter i komponenter.

Comments: Patienten kan idag av tekniska skäl inte uppdatera aktiviteterna själv, utan uppdateringar behöver göras av en Millennium-användare.

Work Step [343]

Description: Patienten kan bidra med information och föreslå justeringar.

Work Step [350]

Description: Patienten kan läsa planen i 1177 Journalen

Comments: Patienter i VGR behöver förstå att Vårdplanen syns under kategorin Vårdplaner.

Work Step [353]

Description: Patienten kan få planen som utskrift.
