Password: justdoit

Invoice

Proceedo is happy that you as a supplier have chosen to send electronic invoices to one or more of your customers via Proceedo Supplier Center. This chapter describes how you should go about getting started with the use of our solution.

Proceedo work with Internet-based solutions that enable electronic invoicing for companies and organizations connected to Proceedo Market™. For you as a supplier, it is completely free to use web invoice via Proceedo Supplier Center.

With web invoice via Proceedo Supplier Center there are three ways to create a debit invoice and one way to create a credit note:

- **Create invoice from earlier invoice**
- **Create invoice from order**
- **Create invoice from empty template**
- **Create credit invoice**

All invoice information transmitted through Proceedo Supplier Center is encrypted using SSL / HTTPS.

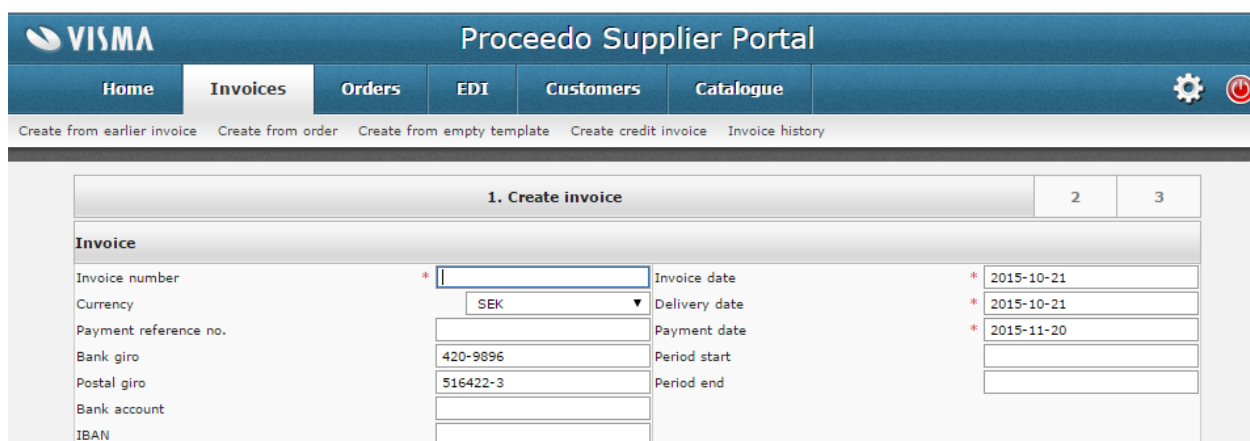

Invoice information

The invoices that are created in Proceedo Supplier Center consist of billing information, customer information, vendor information, line information, total tax and total amount. Some of the information is based on previously entered data and thus is pre filled but possible to change if not correct.

Under Settings >>Addresses and e-invoice, you can change / add information concerning your address and payment information. (See section “Settings” page 14)

The invoice information consists of:

- Invoice Number - In this field you enter your invoice number.
- Currency - This field contains the currency in which the invoice is sent.
- Payment Reference No - In this field you enter an OCR number if one exists.
- Bank giro - This field indicates your bank giro nr.
- Postal giro - This field indicates your postal giro nr.
- Bank account - This field indicates your bank account nr.
- IBAN - This field indicates your IBAN number.
- Invoice Date – In this field the invoice date is generated.
- Delivery Date - The date the goods left you as a supplier alternatively when the service was performed.
- Payment Date - This field contains the invoice due date.
- Period Start - This field indicates period start date
- Period end - This field indicates period end date

The screenshot shows the '1. Create invoice' form in the Proceedo Supplier Portal. The form is divided into two main sections: 'Invoice' and 'Delivery'. The 'Invoice' section contains fields for Invoice number, Currency (set to SEK), Payment reference no., Bank giro (420-9896), Postal giro (516422-3), Bank account, and IBAN. The 'Delivery' section contains fields for Invoice date (2015-10-21), Delivery date (2015-10-21), Payment date (2015-11-20), Period start, and Period end. The form is part of a multi-step process, with steps 2 and 3 visible in the top right corner.

The customer information consists of:

- VAT No - In this field, the customer's VAT number is stated.
- GLN / OVT – The customers GLN / OVT numbers.
- Customer - This box contains the customer's name.
- Address Information: The customers address data: Attention, Street, Postal Code, City, Country.
- Orderer Reference - This field indicates which user at the customer who placed the order.
- Order Reference Number - This field contains the customer purchase order number.

Customer			
VAT no.	SE112233445501	Orderer reference	* Rickard Hansen
GLN/OVT	SE112233445501	Order reference no.	PRO000005712
Customer	Procedo demo		
Attention			
Street	Testgata 12		
Postal code	123 45		
City	Stockholm		
Country	Sweden		
Change...			

Supplier information consists of:

- VAT Number - Your VAT number.
- Name – Your company name.
- Address Information - Your address data: Attention, Street, Postal Code, City, Country.
- Phone no - Your phonenumber for the customer to be able to contact you regarding the relevant invoice.
- E-mail - Your e-mail address for the customer to be able to contact you regarding the relevant invoice.
- Subscription no. - If the invoice should match a customer subscription.
- Invoice Comment - In this field you can enter additional information to the customer
- Attachments - If attachments are to be sent with the invoice.

Supplier			
VAT no.	SE123456789001	Phone no.	
Name	Demo Supplier Se	E-mail	* ekonomi@medcura.se
Attention		Subscription no.	
Street			
Postal code	99999		
City	Testaholm		
Country	Sweden		
Invoice comment		Attachments	
lev till JKP		Attachments...	

Line information comprises:

- **Prod no** - The first column lists the current article no, which is on the order. In some cases, this is only a series of numbers or text. It's important that it says the same thing on the order and the invoice for invoices to be matched properly with the order. For invoice lines with no connected order, such as the indication of other charges, freight costs etc. you agree with the customer what Prod no to use.
- **Description** - The second column lists the product name. If the order originates from a form-order, the name of the form is shown here.
- **Quantity** - Specifies the quantity.
- **Price/quantity, unit** - Shows the price per quantity and the ordered unit.
- **VAT** - The proposed tax rate. Proceedo propose 25% as default as this is the most common tax rate. You can change the amount of VAT as required by typing directly in the column field. Note that according to Swedish law, it is you who is the issuer of the invoice that is responsible for entering the correct VAT.
- **Amount** – The total amount of specified quantity and unit excluding VAT.

Lines							
*Prod.no.	*Description	*Quantity	*Price / quantity, unit			*VAT(%)	Amount
21312	testtest	1,00	444,00 /	1,00	ST	25,00	444,00
		0,00	0,00 /	1,00	PCE		0,00
		0,00	0,00 /	1,00	PCE		0,00
		0,00	0,00 /	1,00	PCE		0,00

Tax Total and **total** consists of:

- **Taxable amount** - A summary of the amount column, showing the total amount of the taxable subjects.
- **VAT rate** - The VAT rate /VAT rates specified in the VAT column.
- **VAT** - The VAT generated from the VAT taxable amount.
- **Shipping excl. VAT** - If freight cost is added to the invoice, enter the amount without VAT.
- **Shipping VAT(%)** - The VAT rate of the freight.
- **Total excl.VAT** - The invoice total amount, excluding VAT.
- **Total VAT** - The invoice VAT total amount.
- **Round off amount** - If rounding is applied, enter the amount in this box and click "Update". Do not forget the minus sign before the amount if rounding down.
- **Total** - The invoice's total amount.

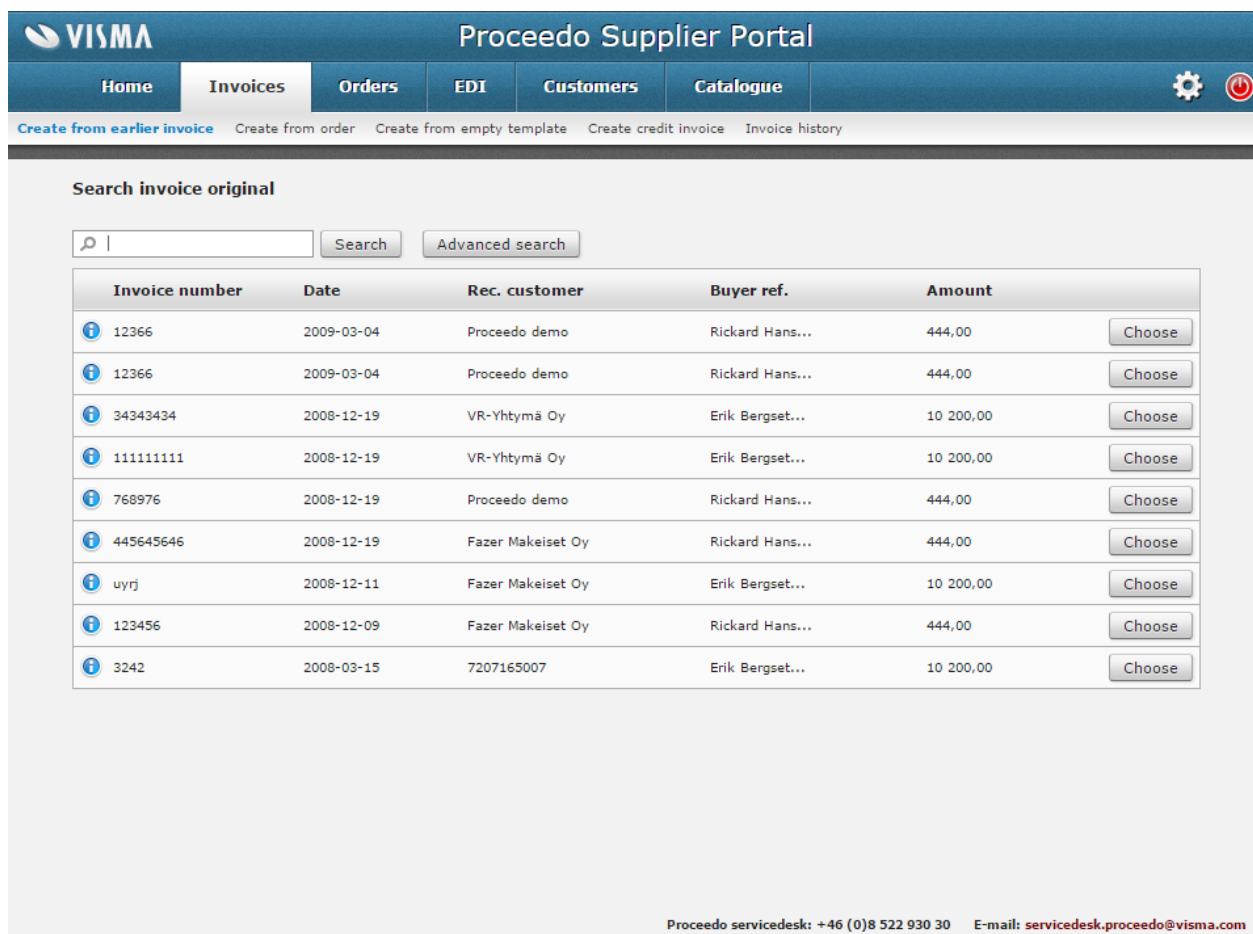

Tax total			Total	
			Shipping excl. VAT	<input type="text"/>
			Shipping VAT (%)	<input type="text"/>
Taxable amount	VAT rate	VAT	Total excl. VAT	444,00
444,00	25,00%	111,00	Total VAT	111,00
			Round off amount	0,00
			Total (SEK)	555,00

Create Invoice

1. Select an invoice template

After logging in, click on "Invoices" and the first step is to choose the type of invoice you want to create.

- Create invoice from earlier invoice
- Create invoice from order
- Create invoice from empty template
- Create credit invoice

The screenshot shows the Proceedo Supplier Portal interface. The top navigation bar includes 'Home', 'Invoices', 'Orders', 'EDI', 'Customers', and 'Catalogue'. Below the navigation bar, there are links for 'Create from earlier invoice', 'Create from order', 'Create from empty template', 'Create credit invoice', and 'Invoice history'. The main content area is titled 'Search invoice original' and features a search input field, a 'Search' button, and an 'Advanced search' button. Below the search area is a table with the following columns: Invoice number, Date, Rec. customer, Buyer ref., and Amount. Each row in the table has a 'Choose' button to its right.

Invoice number	Date	Rec. customer	Buyer ref.	Amount	
12366	2009-03-04	Proceedo demo	Rickard Hans...	444,00	Choose
12366	2009-03-04	Proceedo demo	Rickard Hans...	444,00	Choose
34343434	2008-12-19	VR-Yhtymä Oy	Erik Bergset...	10 200,00	Choose

445645646	2008-12-19	Fazer Makeiset Oy	Rickard Hans...	444,00	Choose
uyrj	2008-12-11	Fazer Makeiset Oy	Erik Bergset...	10 200,00	Choose
123456	2008-12-09	Fazer Makeiset Oy	Rickard Hans...	444,00	Choose
3242	2008-03-15	7207165007	Erik Bergset...	10 200,00	Choose

Proceedo servicedesk: +46 (0)8 522 930 30 E-mail: servicedesk.proceedo@visma.com

2. Search invoice/order or select invoice recipients

The next step is to search the current invoice / order, or choose the current invoice recipient. The choices differ depending on the invoice template you chose in step 1.

- Search invoice original
- Search order original
- Search invoice recipient

3. Create invoice

In the next step an invoice proposal has been generated. The invoice is divided into main information and line information. For a detailed description of the various fields, see Chapter: Invoice Information.

The creation of an invoice based on an earlier invoice includes the following steps:

1. Enter the invoice number.
2. Check / Change Invoice Date, Delivery Date and Payment Date.
3. Check / change the name of the orderer reference.
4. Check / change the customer's order reference number if available.
5. Check / change the line information.
6. Make sure the information is correct in the other fields.

The creation of an invoice based on a purchase order includes the following steps:

1. Enter the invoice number.
2. Make sure the information is correct in the other fields.

The creation of an invoice on the basis of an empty template includes the following steps:

1. Choose supplier
2. Enter the invoice number.
3. Enter the name of the orderer reference.
3. State the customer's order reference number if available.
4. Enter Prod. no, Description, Quantity, Price/Quantity and Unit, VAT.
5. Make sure the information is correct in the other fields.

The creation of a credit note contains the following steps:

1. Choose supplier
2. Enter the invoice number.
3. Enter the OCR number if available.
4. Enter the invoice number of the invoice to be credited under Invoice reference nr. **Very important!**
5. Enter the name of the orderer reference.
6. Enter Prod. no, Description, Quantity, Price/Quantity and Unit, VAT.
6. Make sure the information is correct in the other fields.

If the row information is generated from the purchase order in Proceedo you have the possibility to change existing rows. For example, change the ordered quantity in a partial invoicing. You can also remove the lines or add lines by filling in the appropriate fields. If you make changes, you should click on the "Update" button before you click on "Create" button to see the accurate summation.

Once the information is completed and verified, click on "Create". The fields are checked automatically and if information is missing, an error message appears.

4. Send Invoice

When the invoice is created and you have verified it, the next step is to click on the "Send" button. Then the invoice is sent electronically and encrypted (SSL / HTTPS) to the client by Proceedo.

5. Print and Save invoices

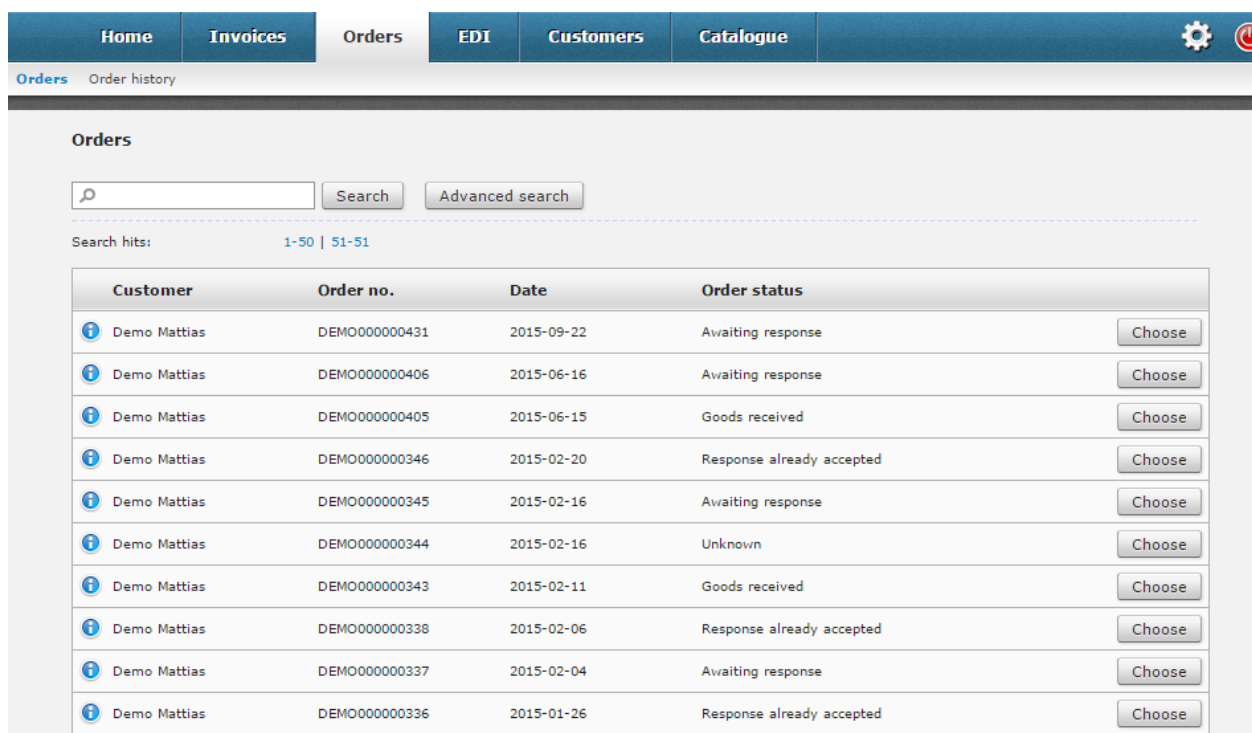

Under "Invoice History" you can see your created invoices. You can print the invoice on paper to archive it, or save the invoice in HTML format by clicking on "Save" and then select the desired folder.

Order

If you as a supplier does not support integrated order confirmation or delivery notification, you can confirm the order and notify the delivery from the Supplier Center.

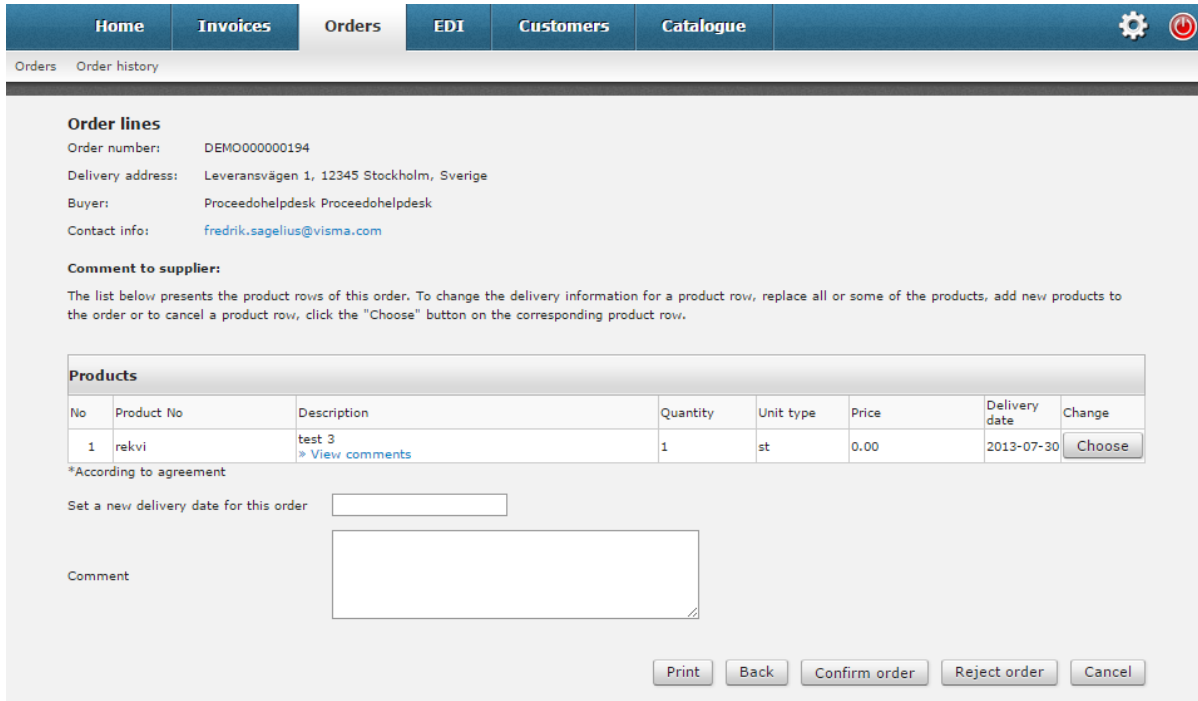

Confirm order

1. Log in to the Supplier Center with the username and password that you received separately from Visma Proceedo.
2. Select "Order"
3. Locate the current order and select it.

Customer	Order no.	Date	Order status	
 Demo Mattias	DEMO000000431	2015-09-22	Awaiting response	<input type="button" value="Choose"/>
 Demo Mattias	DEMO000000406	2015-06-16	Awaiting response	<input type="button" value="Choose"/>
 Demo Mattias	DEMO000000405	2015-06-15	Goods received	<input type="button" value="Choose"/>

 Demo Mattias	DEMO000000336	2015-01-26	Response already accepted	<input type="button" value="Choose"/>

4. Now you as a supplier can confirm or reject the order.

Order lines

Order number: DEMO000000194
 Delivery address: Leveransvägen 1, 12345 Stockholm, Sverige
 Buyer: Proceedohelpdesk Proceedohelpdesk
 Contact info: fredrik.sagelius@visma.com

Comment to supplier:
 The list below presents the product rows of this order. To change the delivery information for a product row, replace all or some of the products, add new products to the order or to cancel a product row, click the "Choose" button on the corresponding product row.

No	Product No	Description	Quantity	Unit type	Price	Delivery date	Change
1	rekvi	test 3 View comments	1	st	0.00	2013-07-30	Choose

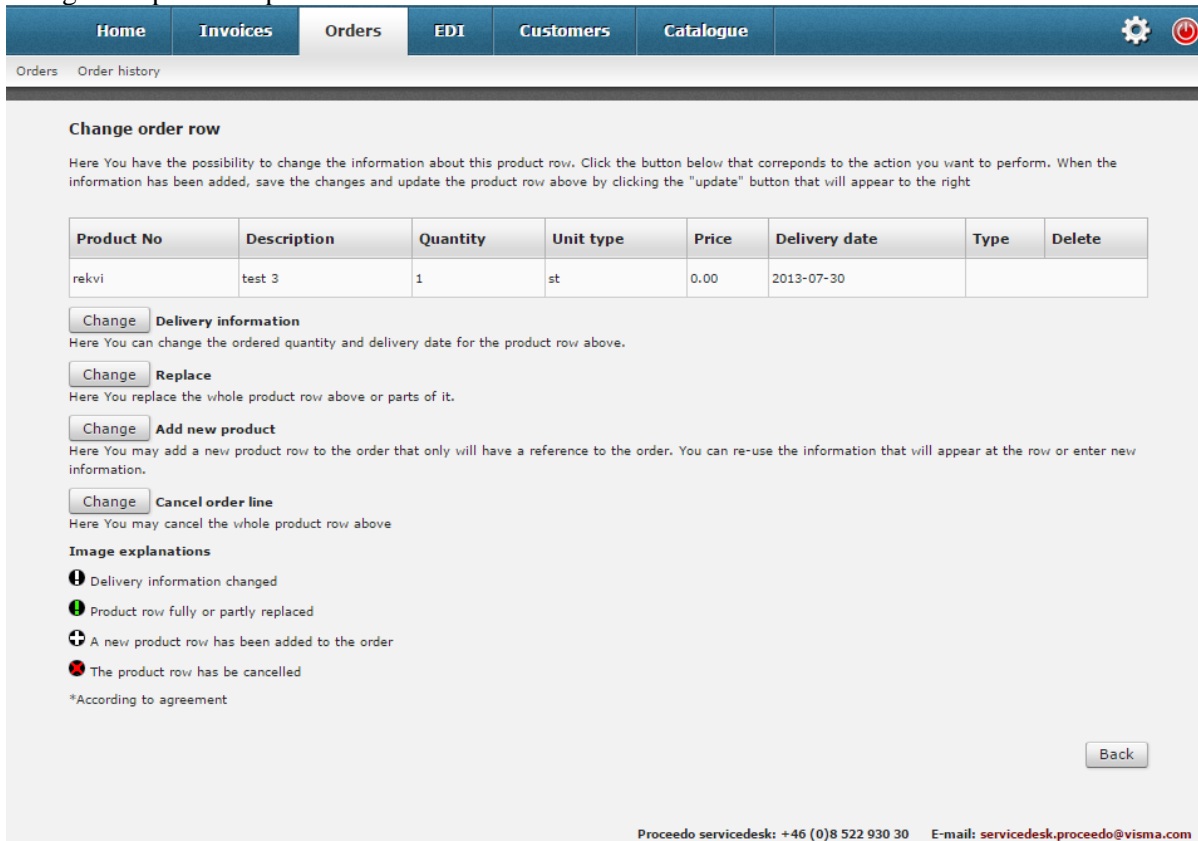

*According to agreement

Set a new delivery date for this order:

Comment:

Buttons: Print, Back, Confirm order, Reject order, Cancel

5. If you click choose on an order line you can change delivery information, change or replace the product and add or cancel order lines.

Change order row

Here You have the possibility to change the information about this product row. Click the button below that corresponds to the action you want to perform. When the information has been added, save the changes and update the product row above by clicking the "update" button that will appear to the right

Product No	Description	Quantity	Unit type	Price	Delivery date	Type	Delete
rekvi	test 3	1	st	0.00	2013-07-30		

Delivery information
 Here You can change the ordered quantity and delivery date for the product row above.

Replace
 Here You replace the whole product row above or parts of it.

Add new product
 Here You may add a new product row to the order that only will have a reference to the order. You can re-use the information that will appear at the row or enter new information.

Cancel order line
 Here You may cancel the whole product row above

Image explanations

- Delivery information changed
- Product row fully or partly replaced
- A new product row has been added to the order
- The product row has been cancelled

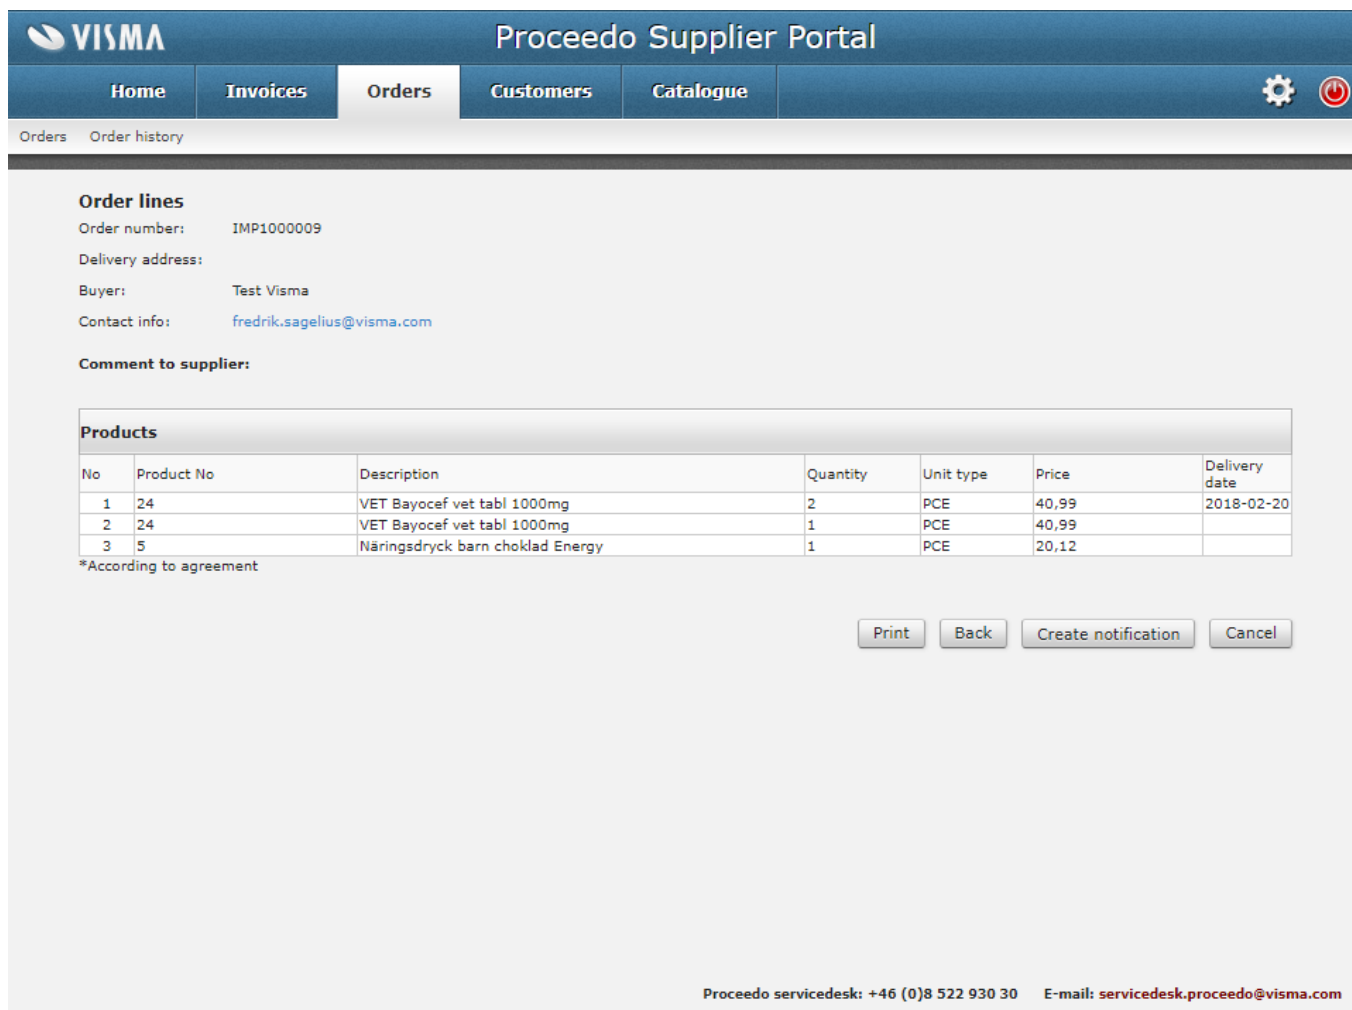

*According to agreement

Buttons: Back

Proceedo servicedesk: +46 (0)8 522 930 30 E-mail: servicedesk.proceedo@visma.com

Delivery notification

1. Log in to the Supplier Center with the username and password that you received separately from Visma Proceedo.
2. Select "Order"
3. Locate the current order and select it. The order must have the status "Response already accepted". I.e. you need to send an order confirmation before you can send a delivery notification.
4. Now you as a supplier can send a notification for the order.

The screenshot shows the Proceedo Supplier Portal interface. At the top, there is a navigation bar with the VISMA logo and the text "Proceedo Supplier Portal". Below this is a menu with options: Home, Invoices, Orders (selected), Customers, and Catalogue. There are also icons for settings and power. Below the menu, there is a breadcrumb trail: Orders > Order history.

EDI

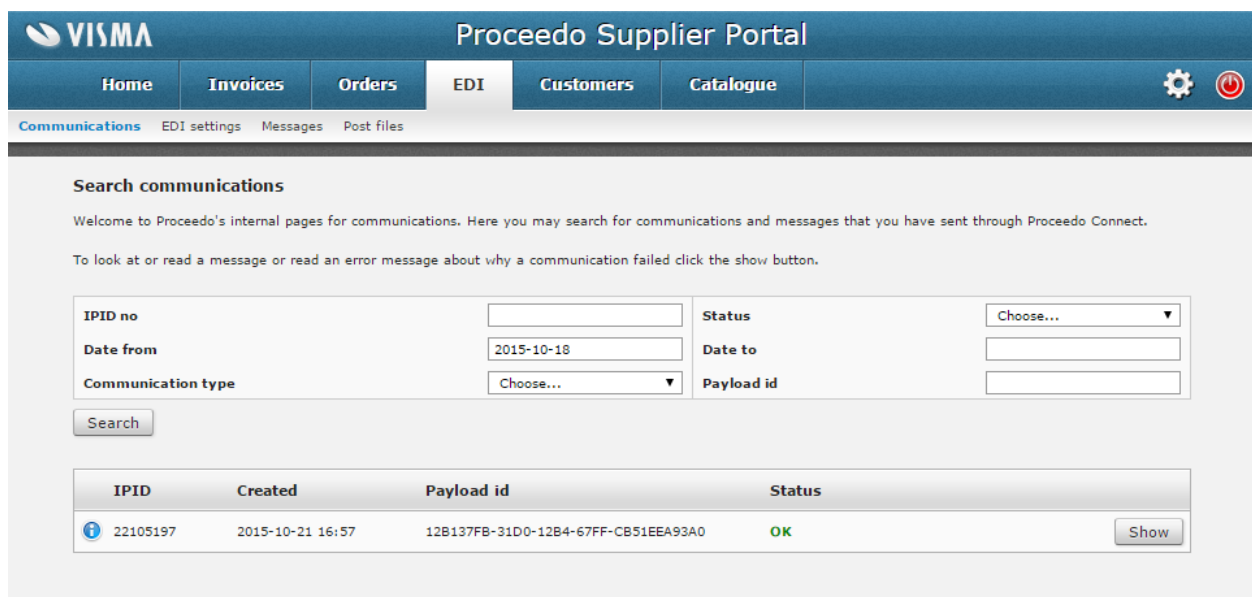

Post files via EDI

Under EDI >> Post Files you can as a supplier send files containing envelope if the parameters are accurate on main level, for example catalogue files or invoice files.

Transfers

When the file is posted, you can see the progress of the transfer in the menu EDI >> Communications. It may take a few minutes before the transfer is complete. Click the Search until you find the posted file in the results list. To look at a message or read messages about why a particular transfer was not successful, click the View button.

IPID	Created	Payload id	Status
22105197	2015-10-21 16:57	12B137FB-31D0-12B4-67FF-CB51EEA93A0	OK

EDI settings

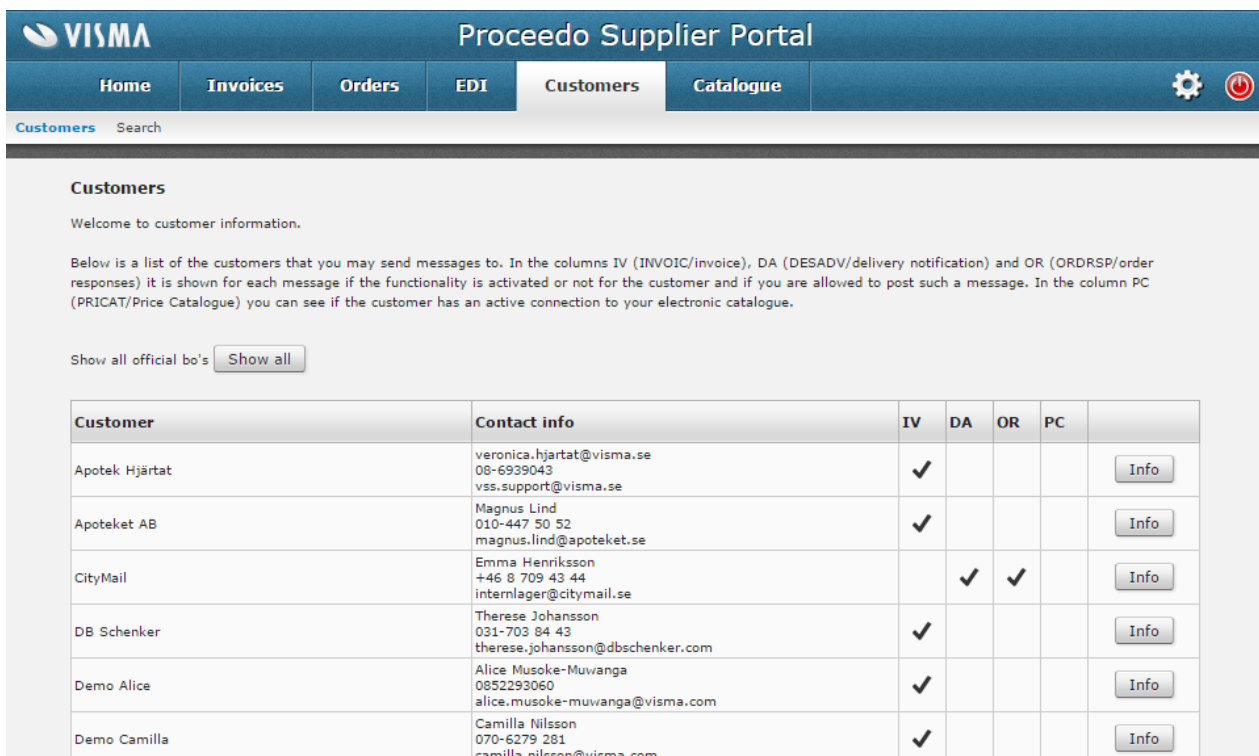

You can see which ID's that identify you as a supplier by choosing EDI >> EDI settings.

These ID's are used for the system to understand which supplier is the sender of an electronic document and must be specified in every document that is sent via EDI >> Post files. It is mandatory to specify at least one ID, and each ID must be unique among Proceodos suppliers.

There is a list that shows your existing IDs. To add a new ID, click "Create new identification", and then enter the ID and error address. To add your new ID to the list, click OK.

Customers

Under customers you can see a list of buyers that you can send electronic messages to. In columns IV (invoices), DA (delivery notifications) and OR (order responses) shows if the feature is enabled or not, and whether you are allowed to send such a message to the customer. In the column PC (directory) appears if the client has an active connection against your electronic catalog in Proceedo.

Customers

Welcome to customer information.

Below is a list of the customers that you may send messages to. In the columns IV (INVOIC/invoice), DA (DESADV/delivery notification) and OR (ORDRSP/order responses) it is shown for each message if the functionality is activated or not for the customer and if you are allowed to post such a message. In the column PC (PRICAT/Price Catalogue) you can see if the customer has an active connection to your electronic catalogue.

Catalog

As a supplier, you can manually post catalogue files to Visma Proceedo's customers.

Post Catalog

1. Log in to the Supplier Center with the username/password that you received separately from Visma Proceedo.
2. Select Catalogue

When you manually post catalogue files in Supplier Center you have the possibility to manually set the import parameters in which you can also see the agreement's current settings. The parameters are:

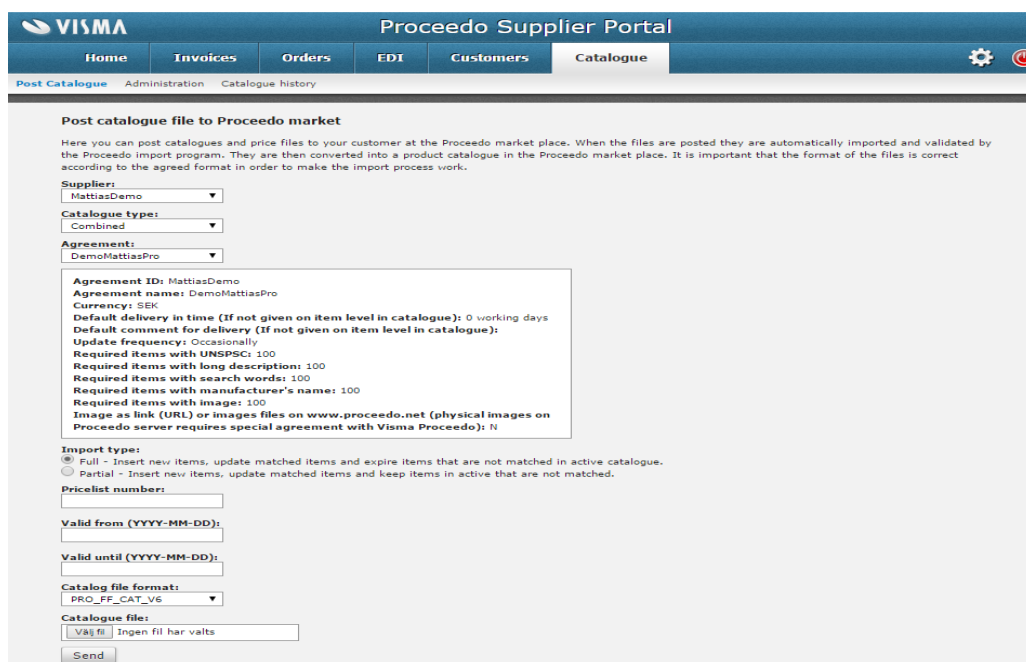

- **Supplier** - This dropdown list defines which companies you are allowed to post catalogues.
- **Catalogue type** - Defines the type of data in the file. Possible values:
 Combined (If the catalog file can contain both products and prices)
 Product (only products)
 Price (only pricelist)
- **Agreement** - lists all the agreements currently setup for the Supplier you selected in the above field.
- **Pricelist number** - you can set a number for this particular file if it contains a pricelist.
- **Valid from** - Define the file to take effect a certain date. It is left empty it is valid the day after the import.
- **Import Type** - Define what happens with the items that do not match the products that are already in the system.

Possible values:

- Full - Add new articles, update matching items and delete items that are not in the posted catalogue.
- Partial - Add new articles, update matching items and keep items that are not in the posted catalogue.
- **Catalog File Format** - Visma Proceedo supports various formats for manual posting. Please contact Visma Proceedo for information on the various formats.

3. Once the parameters are set, press the button "Select a file", and browse to the location on your computer where the catalogue file is located and select the file.

4. Press the Send button.

The screenshot shows the 'Post catalogue file to Proceedo market' form in the Visma Proceedo Supplier Portal. The form includes the following fields and options:

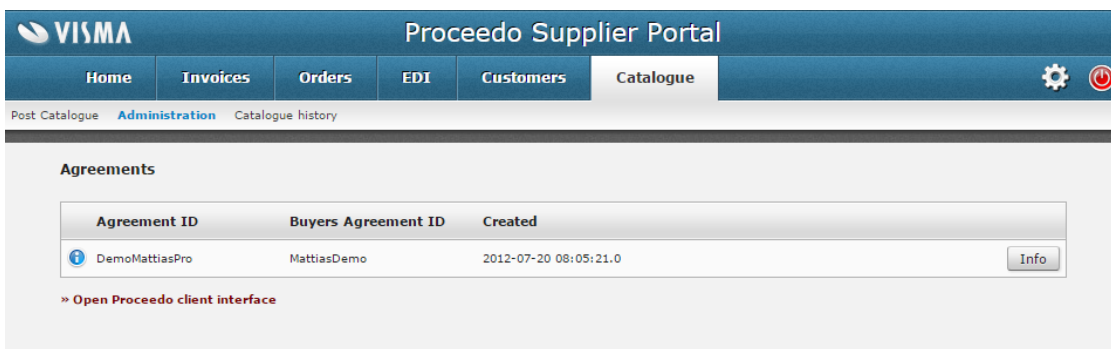

- Suppliers:** MattiasDemo
- Catalogue type:** Combined
- Agreement:** DemoMattiasPro
- Agreement details:** Agreement ID: MattiasDemo, Agreement name: DemoMattiasPro, Currency: SEK, Default delivery in time: 0 working days, Default comment for delivery: (if not given on item level in catalogue):, Update frequency: Occasionally, Required items with UNSPSC: 100, Required items with long description: 100, Required items with search words: 100, Required items with manufacturer's name: 100, Required items with image: 100, Image as link (URL) or images files on www.proceedo.net (physical images on Proceedo server requires special agreement with Visma Proceedo): N
- Import type:**
 - Full - Insert new items, update matched items and expire items that are not matched in active catalogue.
 - Partial - Insert new items, update matched items and keep items in active that are not matched.
- Pricelist number:** (empty text field)
- Valid from (YYYY-MM-DD):** (empty text field)
- Valid until (YYYY-MM-DD):** (empty text field)
- Catalog file format:** PRO_FF_CAT_V6
- Catalogue file:** (empty text field with a file selection icon)
- Buttons:** 'Send' button

Administration

Under "Catalogue" is the submenu Administration. Here are the uploaded agreements and a link to Proceedo client interface. The day after a catalog is posted you can see it in a test environment, such as the customer sees your catalogue file.

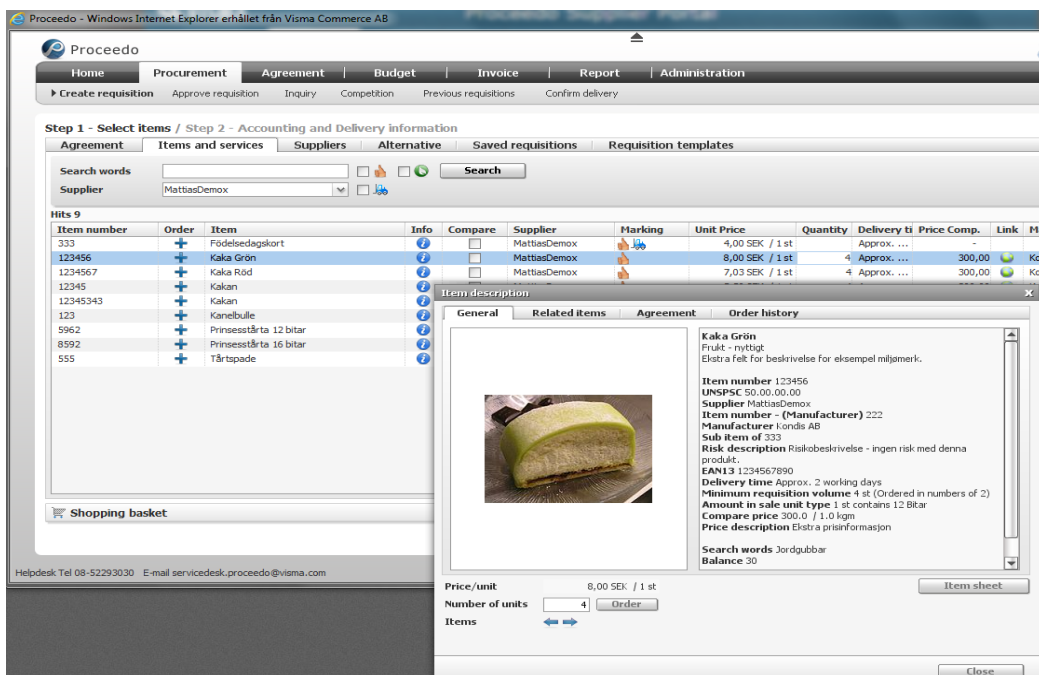

Before the customer can see the catalogue you should approve it to make sure that all the information is displayed as intended.

Click on the link >> Open Proceedo client interface the day after a catalogue import.

The test environment - Proceedo client interface

Choose tab Procurement and then yourself as a supplier under the tab "Suppliers". Then, press the search button, it displays 200 of the catalog products. Pressing the Info button displays detailed information about the product. If you select the Proceedo example catalogue under "Supplier" you will see a few test items, how to use the columns if you have chosen the format PDO_FF_V6.

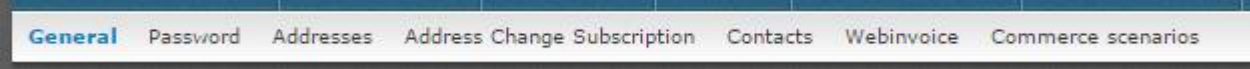

Settings

Click on the Settings icon at top right.

In this section you can among other things update the supplier's e-mail address and password.

General Password Addresses Address Change Subscription Contacts Webinvoice Commerce scenarios

Under *General*, settings that are used only for Supplier Center is set.

Under *Password*, you can change your password for Supplier Center.

Under *Addresses* you find the addresses used for creating e-invoices in the Supplier Center and for auto completion of ID-based EDI messages.

Under *Address change subscription*, you can choose whether you want messages sent when a customer updates their address list.

Under *Web-invoice*, you find the default payment information used in the creation of new invoice in Supplier Center.

Under *Commerce scenarios*, you find what message types that you support.
