

**TO WHOM IT MAY CONCERN**Date  
18 April 2024**Statement on the product optimization of  
Survimed OPD 1.5 KCAL Drink, flavour Cappuccino  
HV-No. 1166/1**

Packaging: 200ml EasyBottle

The formulation of the *Food for Special Medical Purposes*, Survimed OPD 1.5 KCAL Drink, flavour Cappuccino changed from HV-No. 1166 to HV-No. 1166/1, because of product optimization. Due to a new source of hydrolysed whey protein, there are slight adaptations in the recipe.

There are some changes in the quantitative composition affecting the following ingredients

- reduction of calcium citrate, potassium chloride, sodium chloride and magnesium oxide
- increase of hydrolysed whey protein, potassium phosphate, calcium chloride, sodium molybdate, chromium chloride and potassium iodide
- subsequent changes in the maltodextrin content.

The changes in the nutrition declaration are listed in table below. Please note that most of the changes are due to new calculation and rounding rules.
