

ORCID (Open Researcher and Contributor ID) - ett unikt forskar ID

Koppla dina artiklar till ditt ORCID.

ORCID är ett unikt id för varje forskare som används vid publicering för att underlätta att knyta rätt forskningsresultat till rätt upphovsperson. Som enskild forskare kan du ha nytta av ett ORCID i kontakter med finansiärer, förlag och andra forskare. Det löser också problem med namnbyten vid giftermål, sammanblandning av för- och efternamn eller om du har ett vanligt namn som är svårt att särskilja från andra.
